SUMMARY

Versatile full-stack developer with experience in mobile and web application development. Passionate about solving real-world problems through clean code, machine learning, and responsive design. Strong teamwork and mentoring background

PROFESSIONAL EXPERIENCE

Dicoding Indonesia, Full-Stack Developer Facilitator **Jan 2026 – Apr 2026**
Contract, Remote

- Mentored learners in mastering React.js concepts, best practices, and modern front-end development techniques.
- Provided technical guidance and code reviews to help participants improve project quality and implementation.
- Supported participants in completing their Capstone Projects, contributing to an 88% graduation rate, exceeding the 70% target by 18 percentage points.
- Conducted 10 weekly consultation sessions and assisted with 10 ILT sessions, providing troubleshooting support and implementation recommendations.
- Supported participants in solving technical challenges related to React.js, JavaScript, and web application development.

Telkom Indonesia, Developer **Aug 2025 – Jan 2026**
Internship, Onsite

- Developed and maintained web applications using React.js, Vue.js, and Next.js to support various business processes.
- Designed and built dashboard systems integrated with Google Apps Script, Google Sheets, and Telegram Bots for automated reporting and real-time notifications.
- Developed a web-based attendance and leave management system featuring Face Recognition (Face-API.js) and Geolocation for identity and location verification.
- Implemented network-based access restrictions, ensuring the attendance system could only be accessed from the company's internal network and was not publicly accessible.
- Collaborated with cross-functional teams to develop user interfaces, integrate APIs, and improve system performance and usability.

Wish, Developer Assistant **Aug 2025 – Oct 2025**
Freelance, Remote

- Managed and integrated payment gateway solutions tailored for the Middle Eastern market.
- Contributed to the development and improvement of the company’s proprietary payment gateway system.
- Assisted in preparing detailed technical proposals and documentation for client presentations.
- Collaborated with developers to identify technical requirements and ensure smooth project execution.
- Supported the recruitment process by evaluating and recommending suitable developer candidates for ongoing projects.

Bangkit Academy, Mobile Development Cohort **Sep 2024 – Jan 2025**
Study Independence, Remote

- Studied Android application development using Kotlin and Android Studio.
- Developed modern Android user interfaces using Jetpack Compose and applied UI development principles.
- Learned Android application architecture, component development, and best practices for building maintainable applications.
- Studied software engineering, cloud computing, and soft skills as part of the Bangkit curriculum.
- Collaborated in a team to design, develop, and deliver a real-world Android application as a Capstone Project.

ORGANIZATIONAL EXPERIENCE

Sahabat PNJ **Jan 2025 – Aug 2025**
Mentor of Android Division

- Taught the fundamentals of Kotlin programming for Android development using Android Studio.
- Guided students in using Views (e.g., TextView, Button, EditText) to create and customize UI components in Android apps.
- Explained View Binding for easier interaction between Kotlin code and XML layouts.
- Demonstrated the use of Intent for navigating between Activities and passing data with Intent extras.

Sahabat PNJ **Feb 2024 – Sep 2024**
Head of Website Division

- Led and supervised website development projects from planning to deployment.
- Mentored team members in HTML/CSS/Javascript, PHP, Git, and hosting.
- Conducted technical training sessions to improve team skills and workflow efficiency.
- Ensured project alignment with organizational goals through cross-division coordination.
- Oversaw website maintenance to maintain performance, reliability, and security.

EDUCATION

Politeknik Negeri Jakarta **Mar 2022 – Jul 2026**
Teknik Informatika, GPA 3.75

- Studied web application development, covering HTML, CSS, JavaScript, PHP, and Laravel for building dynamic and responsive web applications.
- Gained experience with front-end and back-end development, including database integration using MySQL and PostgreSQL.
- Studied programming fundamentals and software development using C++, object-oriented programming, data structures, and software engineering concepts.
- Developed academic and team-based projects involving web development, database management, and application integration.

CERTIFICATION

Junior Web Developer **Aug 2026 – Aug 2029**
BNSP (s.pnj.ac.id/BNSP_JuniorWebDeveloper)

Belajar Fundamental Aplikasi Web dengan React **Oct 2025 – Oct 2028**
Dicoding (www.dicoding.com/certificates/53XEKKJ2KXRN)

Belajar Fundamental Front-End Web Development **Jun 2025 – Jun 2028**
Dicoding (www.dicoding.com/certificates/2VX3KGNOJXYQ)

Belajar Back-End Pemula dengan JavaScript **Jun 2025 – Jun 2028**
Dicoding (www.dicoding.com/certificates/MRZMN04RRPYQ)

Belajar Membuat Aplikasi Android dengan Jetpack Compose **Jan 2025 – Jan 2028**
Dicoding (www.dicoding.com/certificates/QLZ93K6KEZ5D)

Belajar Pengembangan Aplikasi Android Intermediate **Dec 2024 – Dec 2027**
Dicoding (www.dicoding.com/certificates/1OP84Q0JLZQK)

SKILLS

Technical: Node JS, Vue JS, React JS, Next JS, Cpanel, MySQL, Laravel, Postman
Soft Skills: Leadership, Communication, Teamwork, Documentation Management
Languages: Indonesian (Native), English (Intermediate)
